MEMORANDUM

Date: February 2, 2011

RE: **C**ounty **A**ddress **R**ange **D**irectory – "CARD"

This is the CARD. Using our best resources we have developed this listing of roads, address ranges, and other helpful information that relates to the addresses along that road. For example, the CARD can assist you to determine if your residence or business is in a municipality, or which ZIP code, school district or county council district. We update the CARD regularly. The following guidelines will help you to use the CARD.

1. The CARD is in Adobe Acrobat Reader (.pdf) format. If you do not have the Adobe Acrobat Reader "*.pdf", you can download it for free from www.adobe.com . It is already „loaded' on many computers. The latest version is Adobe Reader X. It is a major improvement over earlier versions.
2. All streets in Lexington County are included with
    a. the correct spelling
    b. the street address ranges and whether Odd or Even applies to that portion
    c. the name of the post office for mailing purposes with the correct ZIP code
    d. municipality identification when appropriate
    e. school district
    f. county council district

You will often notice a street listed several times due to whether it is in or out of a municipality, etc. These „breaks' are as accurately noted as we have information. If you have additional information on any of these items please notify either Ralph Ford (rford@lex-co.com) or Jack Maguire (jmaguire@lex-co.com) at 803-785-1454.

Click on the binocular icon on the toolbar above the text to find a particular street. The binocular icon is not case sensitive. You may use the Edit / Find (Control F) or the ***Find*** functions on the toolbar to locate a particular street. However, you may try just the name without the street type if you don't find it easily. The same street name may be found more than once in the CARD. You may need to use this method more than once to be sure you have identified all portions of that street or any other streets using that name.
