In Favor:
Mr. James Duke - 1643 Barracks Drive, Gilbert, SC 29054 - I have been living there for approximately 17/18 years. First of all let me say thanks to Council. I know you have put a lot of work into this budget. I know requests come at you from many different angles for funding for many different new things. But, let me also say, I have to oppose this budget or any kind of tax increase. The ink is not quite dry on the tax reform bill that was passed. We have yet to receive the full benefit of that tax reform legislation. Here we go instituting a tax creep on that legislation. We have been in a year of record, or near record, of economic growth in South Carolina and in Lexington County. I would ask that you consider keeping the County’s budget within that growth. If that can’t be done, and Billy is painfully aware of this, every time I get a chance to ring the bill of impact fees. Let’s work on some kind of impact fees that can benefit as a whole, not as one specific item. Every time I have brought this subject up, I get smoking mirrors, no straightforward comments from our Legislative Delegation members and others. I would like to see us work together to bring the issue of impact fees to the table and make them function. This is just the first step of the tax increases that, I think, we are fixing to see. The school board, I’m sure, is sitting over in their offices looking at funding for the need of schools in Lexington County District One and other districts. We will soon be, more than likely, hit with a rather large tax referendum to pay for those needs. That’s just another creep in the taxes on us citizens of Lexington County. Again, I ask you to stay within the budget, stay within the growth and not propose a tax increase to support Lexington County government. Thank you.

Mr. Chad Jordan - 331 Spruce Glen Road, Lexington, SC 29072 - I have lived in Lexington for 11 years. When I saw the write up in the paper about the taxes and the increase, the question keeps coming to my mind, as when does it ever stop? When does tax increases ever stop? I’m a business owner. To me it seems as though growth should pay for some needy expenditures. I know you guys take a lot of time on this. I’m sure there are reasons behind the increase, or proposed increase. Maybe I just need to be explained to what those reasons are in more detail because I can’t figure it out because year after year, my taxes continue to go up. And as a business owner, they are even higher than personal property. We are looking at 10 ½ percent for business. I have rental properties and they are at 6 percent and it continues to go up year after year. I’m sure there are tax advocates on the board; maybe you just only hear one side
in the paper. But, to be honest, I don’t know anything about this budget other than my taxes are going up again. And that’s really all I needed to know to be here. I would just ask you to keep that in mind and try to hold the line somewhere. I know they are trying to do things in the State House; I don’t know if that is going to work or not, but I would like to see property tax relief somewhere. You guys have a big role to play in that, so I would just ask you to consider that as you make the motion on your vote. Thank you.

Mr. Derrick stated no one else had signed to speak in opposition of Ordinance 07-05 and closed the public hearing.
