HUD Sustainable Communities Regional Planning Grant Memorandum of Understanding (Goal 2) - Central Midlands Council of Governments - Norman Whitaker, Executive Director - Mr. Whitaker presented a request for Lexington County to participate in the U.S. Department of Housing and Urban Development (HUD) Sustainable Communities Regional Planning Grant Program. He reported that HUD, the U.S. Department of Transportation, the Environmental Protection Agency, and other federal agencies have put together a program called Livable Communities - the Sustainable Communities Regional Planning Program. Mr. Whitaker said they are currently offering $100 million in competitive planning grants to regional consortiums of local governments. The funds will pay for preparation of regional comprehensive plans that address transportation needs, housing, economic development, energy, and water quality. The deadline to submit the grant application to HUD is August 23. One of the rules for the grant require a consortium to consist of the Central Midlands Council of Governments, Metropolitan Planning Organization, the City of Columbia, a non-profit entity from the region, and enough additional counties, towns and cities to comprise of at least 50 percent of the regional population. Mr. Whitaker said the proposed consortium would consist of Central Midlands Council of Governments, Metropolitan Planning Organization, City of Columbia, the South Carolina Urban Land Institute which is a non-profit entity, and other local governments. A Memorandum of Understanding (MOU) between all participants in the proposed consortium must be submitted with the grant application. The Committee asked if there is a match required for this grant. Mr. Whitaker replied they are not using the term “match” but the term “leverage” because it does not have to be the traditional local cash match but can be other federal grants. The leverage is a 20 percent minimum and the COG is not asking local governments to provide funding toward this project. Mr. Whitaker said they would work with existing COG grants and staff’s time to provide the minimum leverage. Local governments will be asked to be involved in working on the plan by providing GIS or Planning assistance. If the grant is approved, they will have 120 days to put together a legal agreement that says the communities will work together on the plan with details on how the funds will be utilized. The COG is asking Lexington County to participate in the consortium with the COG, the South Carolina Urban Land Institute, Richland County, the City of Columbia, and other member governments in pursuing this grant.
A motion was made by Mr. Jeffcoat, seconded by Ms. Summers to recommend to full Council to approve Memorandum of Understanding for Lexington County to participate in the proposed consortium to assist in pursuing the Sustainable Communities Regional Planning Grant.
